

Index to Volume 64

The index to Volume 64 is composed of three parts: a subject index, an author index, and an advertising index.

The primary index terms for each article are listed routinely in *AJHP* as "index terms" after abstracts. Items that were published in the ASHP Reports section, including official ASHP Statements and Guidelines, are indexed under "American Society of Health-System Pharmacists," as well as being covered by *IPA* in many cases. The subject index also notes all regular *AJHP* columns and, under the respective column headings, the titles of items

in the following: Alternative Therapies, Book Reviews, Editorials, Frontline Pharmacist, Letters, Management Consultation, Medicare Modernization Act Q&A, New Practitioners Forum, News, Practice Spotlight, Pharmacy Abroad, and Success Skills. The subject index also contains, under the heading "Correction Notices," the title and issue of publication of items for which corrections were printed, as well as the page numbers on which the corrections appear.
